

Dosing System
→ Silicone

Model: DOSILONE

Possible applications:

Hollow insulators

Technical data and equipment	
Material	Silicone (LSR)
Number of barrels	2 4
Dosing ratios	100:100
Dosing system	Booster
Synchronization	Electronically-hydraulically
Barrel size	200 l
Feeding volume	140 l per ejection 80 l per ejection 60 l per ejection 40 l per ejection
Throughput	5 - 60 l/min 2 - 40 l/min 2 - 30 l/min 2 - 20 l/min
Connection	Up to four clamping machines
Total dimensions (L x W x H)	5500 x 3600 x 2900 mm
