

V10 CLAMPING MACHINE: SILICONE

Technical data and equipment	
Material	Silicone (LSR)
Clamping surface	1800 x 450 mm
Closing force	max. 900 kN
Number of closing cylinders	6
Closing stroke	350 - 1450 mm
Closing mechanism	Pulling - hydraulically
Opening width	1450 mm, accessible from both sides
Heating plates	Available
Number of cavities	1
Max. mould weight	1000 kg per mould half
Casting heads	Bottom
Handling systems/transport	External crane/handling system
Safety devices	➤ Guard rails/fences ➤ Laser scanner
Weight	Up to 7 t
Total dimensions (L x W x H)	3450 x 1400 x 3480 mm

Possible applications:
